

Build® Tables – Whatever the Task. Wherever the Setting. Fact Sheet

Top Features

- A multi-purpose table line with 5 unique, interchangeable shapes that easily move to create single or multiple user configurations
- Build is a lightweight, mobile collection of tables with height adjustable legs to adapt to the changing needs of any space, from commercial to learning areas

Where It Works

- Build creates gathering places that support every type of work, from open areas and training rooms to the shared, active spaces in between
- Supports collaboration in commons and breakout areas as well as studying and heads-down focused work in classrooms or smaller, more personal spaces
- Build is a durable and adaptable solution for individual, small or large group configurations perfect for any learning environment
