

Fire Safety Without Compromise

ELEVATE FIRE SAFETY TO A HIGHER STANDARD

You asked for more seating choices that meet the CAL 133 standard. Here they are. Many of The HON Company's most popular chair models are now available in an array of fabrics that include an advanced barrier of fire protection. This barrier helps HON chairs comply with CAL 133 (California Technical Bulletin 133), the industry's most stringent test for fire-retardant furniture.

DEFINITIVE PROTECTION

The resilient filling materials used in upholstered seating manufactured by The HON Company meet or exceed the flame retardant requirements of the State of California, Department of Consumer Affairs, Bureau of Home Furnishings and Thermal Insulation Technical Bulletin 117-2013 and National Fire Prevention Association standard method 261. The label attached to the seat bottom indicates compliance with these requirements.

- For public buildings with at least 10 chairs in use, CAL 133 sets the bar as the accepted standard of fire safety. The CAL TB 117-2013 standard referenced above evaluates the fire resistance of fabric, but only CAL 133 tests the entire assembled chair.

Result: Greater assurance that your seating will not accelerate an actual fire.

HOW TO ORDER

To ensure that the chairs you order comply with CAL 133, specify one of the fabrics listed here on any of the seating models from the pages that follow. Then simply add "FC" to the model number when ordering.

CAL 133 COMPLIANT UPHOLSTERY

GRADE 1
